

Interior View

Lincoln School
Dolton, IL

Total Building Area
76,000 sf

Construction Cost
\$9,500,000

Capacity
900 students

Completed
Fall 2000

The Lincoln Ave. School project addressed much needed classroom space and replacement of the original building. This project was funded with a school construction grant. The district used life safety funds for the balance of the cost. A thorough analysis demonstrating the cost effectiveness of total replacement versus building renovation avoided the referendum requirement.
